presents a dramatic comparison of the fighting 69th infantry before and after the september 11 2001 attacks describing how a unit of largely untrained

and unequipped immigrants became a battle hardened troop in one of baghdad s most dangerous regions

live from baghdad is the fast paced story of wiener s adventures in iraq during the period of tense international maneuvering that would culminate in open war by turns suspenseful irreverent and inspiring it is also a no holds barred inside look at how the media covered a simmering crisis

one of the most celebrated units in the military for more than a century by 1990 new york city s fighting 69th infantry regiment of the army national guard was scarcely fit for duty its equipment was derelict its discipline nonexistent many of its leaders inept and its ranks filled with kids barely out of high school who had little intention of serving their country for any longer than it took to get their paycheck college credit or job training then came the attacks of september 11 and the invasion of iraq in the fighting 69th sean michael flynn himself a member of the unit chronicles the extraordinary transformation of this band of amateur soldiers into a battle hardened troop at one of the most lethal sites of war watch a video

in response to the iraqi invasion of kuwait on the second of august 1990 a small group of air power advocates in the pentagon proposed a strategic air campaign operation desert storm designed to drive the iraqi army from kuwait by a sustained effort against the major sources of iraqi national power john andreas olsen provides a coherent and comprehensive examination of the origins evolution and implementation of this campaign his findings derive from official military and political documentation interviews with united states air force officers who were closely involved with the planning of the campaign and iraqis with detailed knowledge and experience of the inner workings of the iraqi regime

this book explores the frontier where technology meets business in tech fusion in business and society harnessing big data iot and sustainability this inaugural book of studies in systems decision and control unravels the impact of ai blockchain security and more on industries and societies this book dives into a curated collection of expert insights peer reviewed for academic rigor and practical relevance it joins us in shaping a tech driven future for meaningful change

the colored boys is top gun ii with all the thrills dangers and aerial exploits of the first only better this is the story of aviators who fly f 14 tomcats amazing complex and phenomenal machines possessing technology that was light years ahead of their time two black men from very different backgrounds believe that they can break into the demanding world of naval tactical aviation and learn to fly operate and master these machines and the technology they possess while young and naive these men are also amazingly confident determined and driven type a personalities who take on the challenges that their chosen profession and dynamic careers demand told through their eyes their personalities and their experiences we follow them as they evolve from terrified aviation officer candidates to commissioned officers into seasoned aviators the colored boys follows them from their induction in naval officer candidates school through the myriad of challenges terror and joys of flight school the demands of the replacement air group and then to the demands of squadron life in the fleet they train develop teach and grow and then they are thrust into the life and death struggles of war in the persian gulf there they enter combat and must fight for their survival in a war that tests their mettle as human beings as aviators and as men the colored boys is also about the navy the real navy a beloved but highly traditionalized institution that must grapple with the integration of these men into its culture into its strict caste system of officers persons commissioned and positioned to command sailors and the men and women they command and serve who sometimes unconsciously sometimes quite consciously resist change and have deeply ingrained revulsion prejudices and aversion to black men that they sometimes dont even recognize or believe exists within themselves this is the story of how these two men face tackle and overcome the invisible and mostly covert but highly prevalent racism and still excel in the already highly demanding world of naval aviation this is the story of these phenomenal flying machines the amazing men who fly them and the demanding missions that they perform daily as they serve this nation as members of the united states navy two african american men who fight to prove to others to the navy and ultimately to themselves that they do indeed belong that they can hack it that they too have the right stuff they are many things to many people but ultimately they prove that they are not merely black men not just commissioned officers and not just americans they are naval aviators

following in the footsteps of sir richard burton and lawrence of arabia hugh pope presents his modern day explorations mined from more than three decades of the politics religion and aspirations of muslim peoples to show how the middle east is much more than a monolithic islamic world an

oxford educated scholar of the middle east and acclaimed former foreign correspondent for the wall street journal pope has lived and worked in two dozen countries throughout the region in eighteen revealing chapters he delves into the amazingly varied cultures ranging from the south of sudan to afghanistan and from islamabad to istanbul his probing and often perilous journeys at one point during a meeting with an al qaeda missionary pope is forced to quote koranic verse to argue against his own murder provide an eye opening look at diverse societies often misportrayed by superficial reporting and why they hate us politics with intimate and personal anecdotes arising out of experiences from war fronts to bazaars to the palaces of kings pope weaves a rich narrative that embraces art food poetry customs and the competing histories of the middle east merging the traditions of the classics balkan ghosts and from beirut to jerusalem dining with al qaeda illuminates an infintely complex part of the world with u s foreign policy aiming to engage more construvtively with muslim nations this lyrical book of adventures collects some of the truly important untold stories of our times

traces the development of numerical systems in sumerian egyptian greek roman chinese babylonian and mayan cultures and examines the origins of the hindu arabic numerals we use today back cover

describes the systems of mathematics and measurement used in the ancient world and discusses the influence of ancient mathematics on later science

in today s information era the use of specific words and language can serve as powerful tools that incite violence or sanitize and conceal the ugliness of war this book examines the complex twisted language of conflict why is the term collateral damage used when military strikes kill civilians what is a catastrophic success what is the difference between a privileged and unprivileged enemy belligerent how does deterrence differ from detente what does hybrid warfare mean and how is it different from asymmetric warfare how is shell shock different from battle fatigue and ptsd these are only a few of the questions that talking conflict the loaded language of genocide political violence terrorism and warfare answers in its exploration of euphemisms warspeak doublespeak and propogandistic terms this handbook of alphabetically listed entries is prefaced by an introductory overview

that provides background information about how language is used to obfuscate or minimize descriptions of armed conflict or genocide and presents examples of the major rhetorical devices used in this subject matter the book focuses on the loaded language of conflict with many of the entries demonstrating the function of given terms as euphemisms propaganda or circumlocutions each entry is accompanied by a list of cross references and further reading suggestions that point readers to pertinent sources for further research this book is ideal for students especially those studying political science international relations and genocide as well as general readers
