i my dear son marcus you have now been studying a full year under cratippus and that too in athens and you should be fully equipped with the practical precepts and the principles of philosophy so much at least one might expect from the pre eminence not only of your teacher but also of the city the former is able to enrich you with learning the latter to supply you with models nevertheless just as i for my own improvement have always combined greek and latin studies and i have done this not only in the study of philosophy but also in the practice of oratory so i recommend that you should do the same so that you may have equal command of both languages and it is in this very direction that i have if i mistake not rendered a great service to our countrymen so that not only those who are unacquainted with greek literature but even the cultured consider that they have gained much both in oratorical power and in mental training

de officiis on duties or on obligations is a treatise by marcus tullius cicero divided into three books in which cicero expounds his conception of the best way to live behave and observe moral obligations de officiis was written in october november 44 bc in under four weeks this was cicero s last year alive and he was 62 years of age cicero was at this time still active in politics trying

to stop revolutionary forces from taking control of the roman republic despite his efforts the republican system failed to revive even upon the assassination of caesar and cicero was himself assassinated shortly thereafter the essay was written in the form of a letter to his son with the same name who studied philosophy in athens judging from its form it is nonetheless likely that cicero wrote with a broader audience in mind the essay was published posthumously de officiis has been characterized as an attempt to define ideals of public behavior it criticizes the recently overthrown dictator julius caesar in several places and his dictatorship as a whole although cicero was influenced by the academic peripatetic and stoic schools of greek philosophy this work shows the influence of the stoic philosopher panaetius the essay discusses what is honorable book i what is expedient or to one s advantage book ii and what to do when the honorable and expedient conflict book iii cicero says they are the same and that they only appear to be in conflict in book iii cicero expresses his own ideas michael grant tells us that cicero himself seems to have regarded this treatise as his spiritual testament and masterpiece cicero claims that the absence of political rights corrupts moral virtues cicero also speaks of a natural law that is said to govern both humans and gods alike cicero urged his son marcus to follow nature and wisdom as well as politics and warned against pleasure and indolence cicero s essay relies heavily on anecdotes much more than his other works and is written in a more leisurely and less formal style than his other writings perhaps because he wrote it hastily like the satires of juvenal cicero s de officiis refers frequently to current events of his time

on obligations composed by cicero in late 144 bc following the assassination of julius caesar recommends ideals of conduct to the young roman who aspires to a political career it explores the apparent tensions between honorable conduct and expediency in public life the principles of honorable behavior are based on the stoic virtues of wisdom justice magnanimity and propriety the analysis of expediency explores the right and the wrong ways of attaining political leadership and cicero s conclusion is that the intrinsically useful is always identical with the honorable this treatise has played a seminal role in the formation of ethical values in western christendom it was adopted by the fourth century christian humanists notably ambrose and became transmuted into the moral code of the high middle ages thereafter in the renaissance from the time of petrarch and in the age of enlightenment that followed it was given central prominence in discussion of the government of states on obligations is of perennial concern in
