new leadership for today's health care professionals cases and concepts second edition explores various components of the health care system and how leaders should respond in these arenas the second edition is a thorough revision that offers a comprehensive view of the leadership competencies necessary to be successful in today's healthcare industry each chapter is written by a leader in the healthcare industry under the guidance of the editors who have many years experience in academia

health care providers frequently engage in setting policy agenda at the individual systems institutional or public level health policy application for nurses and other health care professionals provides an overview of the policymaking process within a variety of settings including academia clinical practice communities and various health care systems by including both policy evaluation and research the author provides a comprehensive and multi perspective approach to developing and formulating effective health care policy unlike other texts health policy application for nurses and other health care professionals utilizes a condensed format without a large amount of explanatory text topics include governmental overviews and roles policy formulation and analysis public health political theory and practice ethical perspectives and policy institutes

the united states spends greatly more per person on health care than any other country but the evidence shows that care is often poor and inappropriate despite expenditures of 1.7 trillion dollars in 2003 and growing substantially each year services remain fragmented and poorly coordinated and more than 46 million people are uninsured why can't america with its vast array of resources sophisticated technologies superior medical research and educational institutions and talented health care professionals produce higher quality care and better outcomes in the truth about health care david mechanic explains how health care in america has evolved in ways that favor a myriad of economic professional and political interests over those of patients while money has always had a place in medical care big money and the quest for profits has become dominant making meaningful reforms difficult to achieve mechanic acknowledges that railing against these influences which are here to stay can

achieve only so much instead he asks whether it is possible to convert what is best about health care in america into a well functioning system that better serves the entire population bringing decades of experience as an active health policy participant researcher teacher and consultant to the public and private sectors mechanic examines the strengths and weaknesses of our system and how it has evolved he pays special attention to areas often neglected in policy discussions such as the loss of public trust in medicine the tragic state of long term care and the relationship of mental health to health care for anyone who has been frustrated by uncoordinated health networks insurance denials and other obstacles to obtaining appropriate care this book will provide a refreshing and frank look at the system s current and future dilemmas mechanic s thoughtful roadmap describes how health plans healthcare professionals policymakers and consumer groups can work together to improve access quality fairness and health outcomes in america about the author

a complete introductory guide to the principles and clinical application of teamwork in health care understanding teamwork in health care emphasizes the essential competencies necessary to implement teamwork in health care in a complex hospital or primary care setting unlike similar books on the subject which are theoretical or policy oriented this text offers practical real world coverage valuable for health care professionals seeking a thorough explanation of teamwork and for trainers working in hospitals or primary care settings could also be used as a textbook mini cases throughout the text help readers appreciate real world application of principles written to a level suited for the non specialist
